Education

VNR Vignana Jyothi Institute of Engineering and Technology **Hyderabad, India**
B.Tech in Computer Science Engineering; CGPA: 8.99 / 10.0 *Expected May 2028*

Kakatiya Junior College **Nizamabad, Telangana**
Intermediate (MPC); Percentage: 95.9% *Jan. 2024*

Technical Skills

Languages:	C++, Python, JavaScript (ES6+), Java, SQL
Frameworks & Libraries:	React.js, Node.js, Express.js, Flutter, MongoDB
Developer Tools:	Git, GitHub, Docker, Jira, Linux (Ubuntu/CentOS), Postman
DevOps & Security:	REST APIs, JWT/OAuth 2.0, VAPT, System Hardening, Agile/Scrum

Experience

Full Stack Software Innovation Intern **Jan. 2026 – Feb. 2026**
VJStartup – VNR VJIET *Hyderabad, India*

- Architected Hubverse, a scalable campus management ecosystem using React, Node.js, and MongoDB.
- Secured application endpoints by implementing JWT-based authentication and Google OAuth 2.0.
- Developed an automated QR-based attendance module, cutting manual data processing time by 90%.

Full Stack Development Intern **Jan. 2025 – Mar. 2025**
ManComm Platform *Remote*

- Engineered the ManComm platform using the MERN stack while following Agile methodologies and Scrum frameworks.
- Utilized Jira for sprint planning, task tracking, and efficient bug lifecycle management.
- Integrated database-driven role management and notification broadcasting for secure real-time communication.

Server Management & DevOps Intern **July 2024 – Sep. 2024**
Innovation Cell – VNR VJIET *Hyderabad, India*

- Maintained 99.9% uptime for production servers by implementing proactive monitoring and load distribution.
- Configured Linux (Ubuntu/CentOS) environments with automated log aggregation for real-time error auditing.
- Managed DevOps workflows including automated backups and security patching to ensure system integrity.

Projects

Vox Scholar AI – Research Dialogue System React, Node.js, LLM API

- Finalist at Webathon 4.0; engineered an AI pipeline utilizing GPT models to convert PDFs into audio.
- Integrated Text-to-Speech (TTS) and summarization algorithms to enhance academic research accessibility.

Smart Parking Management System Flutter, Node.js, MongoDB

- Live-deployed Flutter application at VNR VJIET managing campus-wide parking slot availability.
- Engineered a real-time tracking system with automated status triggers and a user-friendly mobile interface.

Jarsh – Mobile & Web Application Mobile, Web, BLE, Location Services

- Engineered a cross-platform mobile and web application integrating Bluetooth Low Energy (BLE) for device discovery, connection, and real-time data exchange.
- Implemented location management workflows to track and process device and user location data efficiently.

Leadership & Involvement

Wing Member – Infra Wing, VJStartup **Jan. 2026 – Present**
VNR VJIET *Hyderabad, India*

- Leading initiatives in Vulnerability Assessment and Penetration Testing (VAPT) to secure startup assets.
- Overseeing Linux Server hardening and infrastructure security protocols for production environments.

Volunteer – ISTE Student Chapter **Aug. 2024 – Present**
Indian Society for Technical Education *Hyderabad, India*

- Assisted in organizing technical workshops and problem-solving competitions for 500+ participants.
